PROSPECTUS OF A new Story on an old Subject.

THE AUTHOR, in presenting the following work to the public can not but feel that he has an arduous task to perform in catering to the public faste, and has somewhat digressed from the established rules, and customs of an thore by taking up a subject which, if carefully persued, and the advice berein contained followed, the ambition of the author will be gratified to its utmost extent, and the object of this work will have been attained, viz: to put the careful and indulthe author will be gratified to its utmost extent, and the object of this work will have been attained, viz: to put money in in y pocket and to give to the careful and indulgent reader a literary treat through the agency of the digesture organs. It might perhaps be necessary to state, that the most of the manuscripts from which this tale was founded was taken from an old dress pocket found in a 2nd hard Clothing Store a few weeks since in New York by the author, and originally owned by the indefallgable less. Toontes, at once conveying to the mind of the reader that a brooms may be expected. Hoping the kind and indulgent public will excase any blunders and look will a petron sing ere upon my bumble efforts to procure for them 1st, a chosts of Imperial and Black Teas, the facest ever brought to this market, and put up in such a shape that every one can need it for themselves. Still keeping in view that philamthropic principle which actuated me to purchase of the impurters a choice selection of Mocha, Old Gov Jara and Baltimore Rio Coffees. I must not digress so far from my subject as to forget that I also laid in a hountilal supply of Baker's Bromn and French Chocolate, an excellent marning drink for my nervous reader in these troublous political times. In compiling the forthcoming work I shall "datate" protty extensively on the merits of "To Fy". The following extract taken from the "Bung". letown Fassett will convey some idea of the attention paid to that valuable insent:

"We take great pleasure in aunouncing that a celebrated author from one of the Western States is now in our city collecting specimens for a forthcoming work, upon which he is engaged. We notice a large invoice of the genuine "Heiseick Champayns." Together with a full assortment of choice Wines and Liquars, among which the justly extensive to his new work, which is to be wish the author success to his new work, which is to be

many of them who have the magnanity to pay for it. We wish the author success to his new work, which is to be called " Fe F/y"

wish the author success to his new work, which is to be called "Fe Fig".

As the author feels incompetent to proceed in that Figur's style so common with writers of the present day, he begs to ray that in its proper place in the work he will serve up 500 bags of that indespensable articles in 25, 50 and 100 lb bags, thereby leaving it at the option of the readers to Figur to their own tasts. For "fear" (and what author is without it) that this stupendous enterprise might end in "smole" the author has carefully laid in a large and choice collection of "Segars," which will give each reader an opportunity of sustaining the author by giving him a "pust" and furthermora, in order to veryify the old rovers of where there is so much smoke there must be some firs, the compiler of these valuable manuscripts has added a beavy stock of "Matches" As another digres sion, for which I beg pardon of all authors who "spice" their concortions with brilliant showers of wit and humor, I have employed a substitute, which I cannot but believe is of a there substitute, which I cannot but believe is of a there substitute, which I cannot but believe is of a there substitute, which I cannot but believe is of a there substitute, which I cannot but believe is of a there substitute, which I cannot but believe is of a there substitute, which I cannot but believe is of a there substitute, which I cannot but believe in the substitute of Authors, French, English of Nutures, Gioger, Diamemon, Cover, French, English and Kentucky Mustards, Allanies, Pepper, ground and unground. C.taps of different varieties, Wordesterative John Bull and Kenvey Savez, and in the place of sweetening the many beautiful passages, which will occur from time to time with mountight rays, sephyr breezes, and the meetar sip'd from the pure lips of innocence, I have emnector up a from the pure tips of unacones, I have em-ployed the more powerful argament of Poncheed, Crush-ed, Loaf, Clarified and Grunulated, and different degrees of Brown Sugars combined with the more liquid streams of Riebo let, Sugar House and Plantation Molasses, and the bright and flowing Griden Syrup. How beautiful, in-dulgent reader, does Pope or Guiliver (the author does not distinctly remember) express himself in the following "House' Strains." Honey & Strains :

Bow do h the little husy Bee
Improve each shilting hour
And gather Honey——I here beg leave to
corder more fully to carry out the objects of this same work, I have provided myself with a large stock of same work, I have provided myself which will be used in its return! state or "strained" to suit the taste of the reader, as "straining" is a too common error among authors, which too very often places them in a position where they are compelled to make a "raise." I have in order, if possible to avoid that unpleasant predicament, taken the presention to provide a large supply of Preston a Merrill's Feed Ponders, whose raising qualities my numerous readers have probably formed some cpinion. As a bright and shining "light" as I intend this work to be, I shall substitute the agency of Star, Adamantine, Sperm and Dillow Cardles, and to "cleanse" the mind of all impurities shall resort to Cardle, elein and Common. Bar Soan, which together with Wash Boards, Tubs, Buciels Brooms, and Scrub Brushes, I have procured an abundant supply. As it is a time honored cusion with compilers of great works to first "polich the understanding" of their readers, I take pleasure in stating that I shall for this impose bring into requestion a full supply of "Blacking" and "Shoe Brushes," and in order that the reader may more faily appreciate the sweet and choice selections above mentioned I shall preface each chapter with a full description of different variaties of Pickles, Gross & description of different variaties of Fickles, Gross & Blackwell's Chew Chow and Ficcalli, Gerkin's prepared Horse Radich and pure Caler Vinegar, for as a wise man once said, every sweet his its sour, or something to that effect. As this work will, undenbiedly, fall in the hands of a reat many highly educated persons, who will look for the more diguided or "stiff" portions of the work, I shall introduce a heavy stock of Colgates & Fares Feart. March, whose suffering qualities none can say cught against, and another class of readers who are too easily against, and another class of "Meal'y" mouthed authors, and are never willing to acknowledge the "Corn," shall be amply supplied with extracts from a large Bin of Corn. Meal, Bys M.d., or unforted Four. As the forthcoming work will be avended with enormous expense, owing to the sudden advance of Taxes (the cause of which has never been fally ascertained) the author is compelled to forego

FIRST PREMIUM SEWING MACHINES

Nashville Sewing Machine Company Nos. 71 1-2 EAST SIDE OF THE PUBLIC SQUARE, NASHVILLE, TENNESSEE.

THESE Machines are now very justly considered to be the best in use, having the advantage of all others in the simplicity of their construction, the speed and beauty of their work, and the great strength of their seam. Unlike any others in use, they form a seam with two continuous threads from ordinary spools of cotton, silk or linen—makings knot a twerty sitch which provents the work from ripping under ny circumstances whatever.

The first and highest prumlums have been awarded to these Machines at all the leading Fairs throughout this country and Europe, and the largest patronage ever bestowed upon any Sewing Machine in Europe or America.

They are of the highest finish, and of every variety of sine and style, and adapted to all the wants of the fewing community.

and style, and adapted to all the wants of the Sawing com-munity.

They are all secured exclusively to the proprietors by let-ters patient, and are free from all legal controversy. Great pains has been taken to adapt these Machibes to Plantation sewing, and they are now so simple, durable and easily ren and tonded by any person, that they are entirely beyond competition for this work or for the manufacture of heavy or light bags, for Corn or Wheat, no machinery has ever been invented to surpass thom—any person after one hours practice can make from 400 to 700 corn sacks per day du one machine. These machines are also equally well adapted to the manufacture of all kinds of clothing, coarse or fine, as well as general sewing, quitting, sittching, dec. These ma-chines are so arranged as to make the stitch any length de-sired, and to sew with case any and every seam in any gar-ment, and the durability, regularity and beauty of finish, cannot be equaled by any work accomplished by the most skillful nands.

We shall at all times keep on hand a ull assortment of these machines, and most respectfully invite the public generally to call and see them in use, and give them a careful examination and be satisfied that the half has not yet been MOUNT OLIVET CEMETERY. THE Directors of this Company new announce to the

THE Directors of this Company new announce to the Public, that this Cemetery has been laid off with ruit able arenues and walks, and a perion of the ground, subdivided into Family Lots, which are effered for sale. The map of the grounds can be seen as the office of Lindsley & Crockett, where the public are lavited to call and examine the same.

The Company feel confident they could not have made a more suitable location for a Cemetery in the vicinity of Nashville, and pledge themselves to the public to spare no money or pains to make it equal to any Cemetery in the Union, and such a one as Nashville may feel some pride in.

The Cemetery is now in charge of a competent Superintsudent, living on the ground, under whose direction interments will be made in the best manner and at the usual charges.

Ladies and Families desirous of visiting the grounds, will be called for at their residences, by sending their C. W. NANCE, Sec'y. eards to the President of the Company
